

**NORWIN ART LEAGUE**  
**presents**

**Understanding Color – Hue, Value, Temperature and Chroma**

In this 3-hour mini workshop, you'll uncover the secrets to accurate color mixing. Whether you're painting landscapes, seascapes, or portraits, success starts with getting your colors right. You'll begin by learning essential color concepts, then work alongside Manjushree to practice mixing with precision and confidence.

**Location:** Norwin Art League

**Time:** 30th August (9 am to 12 pm)

**Cost:** \$50

**Materials:** List will be provided upon registration. Manjushree will demonstrate using a relatively standard palette as well as some unique colors. Students don't need to bring the full palette right away—they can observe and add these colors to their collection later in their art journey.

**Skill Level:** Ideal for beginner to intermediate students seeking to build strong color mixing skills, and for advanced artists aiming to master the nuances of skin tone.
